A Celebration of Learning and Expression

It is with great pride and joy that I extend my heartfelt congratulations to the editorial team, students and faculty on the release of Sahu Sriyans Journal - Focus on the occasion of our 52nd Annual Day. This journal is a testament to the immense talent, creativity and dedication that define our school community.

A platform like this allows students to express their thoughts, share their knowledge and showcase their talents beyond the classroom. It encourages a culture of critical thinking and intellectual discourse—values that we strive to instil in every student at Kamlavati Higher Secondary School.

I am confident that this journal will serve as a valuable repository of ideas and inspiration for years to come. Congratulations to everyone involved and best wishes for a successful and joyful Annual Day celebration!

Smt.Durgavati Jain Trustee

A Milestone of Knowledge and Creativity

As we celebrate the 52nd Annual Day of Kamlavati Higher Secondary School on 10th February 2025, I am delighted to extend my best wishes for the release of Sahu Sriyans Journal - Focus. This journal represents the collective efforts, aspirations and intellectual creativity of our students and faculty, and I am certain it will leave a lasting impact.

A school journal is more than just a publication; it is a reflection of our institution's dedication to nurturing young minds, fostering innovation and upholding academic excellence. I commend the entire editorial team, students and teachers who have worked tirelessly to bring this edition to life.

May Sahu Sriyans Journal - Focus continue to be a beacon of inspiration for generations to come. Wishing everyone a successful launch and a memorable Annual Day celebration!

Shri.Bakul Jain Trustee

A Proud Moment for Our Institution

On the grand occasion of our 52nd Annual Day, I am honoured to express my wishes for the release of Sahu Sriyans Journal - Focus, a remarkable initiative that showcases the literary and intellectual prowess of our students. This journal is a reflection of the hard work, enthusiasm and dedication of our school community.

At Kamlavati Higher Secondary School, we believe in providing our students with opportunities that help them grow holistically. The launch of this journal is a step forward in encouraging creativity, academic excellence and the spirit of learning.

I extend my warmest wishes to the entire team behind this wonderful endeavour. May Sahu Sriyans Journal - Focus continue to flourish and inspire future generations. Congratulations and wishing everyone a fantastic Annual Day celebration!

Shri.Vivek Jain Trustee

OUR BELOVED TRUSTEES

Shri.G.Srinivasan Sr. Executive Vice President, DCW Ltd & Trustee, KHSS

A Proud Moment for KHSS

On this momentous occasion of the 52nd Annual Day of Kamlavati Higher Secondary School, I am honoured to extend my warmest wishes for the release of Sahu Sriyans Journal - Focus. This journal stands as a powerful platform that showcases the talents, perspectives and creativity of our students, capturing the essence of our school's academic and cultural vibrancy.

Education extends beyond textbooks and initiatives like this journal play a vital role in shaping well-rounded individuals. It is heartening to see our students express their ideas, engage in intellectual discussions and take pride in their contributions. The dedication of our faculty and editorial team in bringing this journal to life is truly commendable.

I am confident that Sahu Sriyans Journal - Focus will serve as an inspiration for years to come, encouraging students to explore their potential and strive for excellence. Congratulations to all involved and best wishes for a remarkable Annual Day celebration!

Celebrating Vision, Creativity and Excellence

It is with immense pride and joy that I extend my heartfelt congratulations to Kamlavati Higher Secondary School on the release of Sahu Sriyans Journal - Focus on the grand occasion of its 52nd Annual Day.

A school journal is much more than a publication-it is a reflection of the vibrant intellect, creativity and aspirations of our students and faculty. Through its pages, we witness the thoughts, ideas and achievements that shape the future of our school. This initiative not only nurtures literary and analytical skills but also fosters a culture of expression and innovation among young minds.

I commend the editorial team, teachers and students who have dedicated their efforts to making this journal a reality. May Sahu Sriyans Journal - Focus continue to inspire, educate and serve as a testament to our institution's commitment to excellence. Congratulations to all and best wishes for a successful launch and a memorable Annual Day celebration!

FINDING THE "YOU"....!!!-

Before "Harry Potter" became a global phenomenon, J.K. Rowling faced rejection after rejection. She was living in relative poverty and battling depression, but her passion for the story kept her going. She poured her heart into writing and though she faced countless setbacks, she didn't give up. Finally, after much perseverance, "Harry Potter and the Sorcerer's Stone" was accepted by a publisher. Today, her story is one of the greatest examples of how passion, paired with relentless determination, can lead to extraordinary success.

The above anecdote helps us to resonate with our life as it unfolds, we find ourselves standing at the threshold of countless opportunities, each one waiting to be seized. To mention in particular for the students, it's easy to get caught up in the daily grind of assignments, tests and expectations, but let's not forget the true purpose of education: to unlock our potential and set our aspirations into motion.

Motivation isn't something that appears overnight; it's cultivated through small, deliberate actions, the belief in one's abilities and the courage to pursue dreams, no matter how big or small. Whether it's acing that next test, mastering a new skill, or finding the strength to overcome challenges, every step counts.

We are all capable of more than we realize and sometimes, all it takes is the right mindset. The road may not always be easy, but perseverance, coupled with the passion to succeed, can make all the difference. It's not about perfection; it's about progress. So, let's dare to be bold in our pursuits.

Let's support one another, fuel each other's ambitions. and take the initiative to shape the future we dream of. The journey may seem long, but with each step, we're growing, learning and moving closer to greatness. The time to act is **now**.

Wish you all success

Ms.USHAGANESH Advisor Kamlavati Hr.Sec.School Sahupuram

FROM THE EDITOR'S DESK

"Live a Thousand Lives! A reader lives a thousand lives...

-MS. JOHNCY GOLDA C M.A., B.Ed.

It is with profound delight and pride that I invite you to immerse yourself in the latest edition of "FOCUS", our school's annual journal. This vibrant publication serves as a testament to the ingenuity, perseverance and creativity of our students and faculty, showcasing their remarkable achievements and aspirations.

As educators, we recognize our pivotal role in inspiring and nurturing young minds, fostering an environment that encourages curiosity, exploration and determination. As **Nelson Mandela** once said, "Education is the most powerful weapon which you can use to change the world." This journal chronicles the extraordinary journey of our school community, highlighting the innovative spirit, academic excellence and collaborative ethos that define us. This edition is made special as it conglomerates the students' journal from the Young Authors' Club(YAC) as an Edition named Young Authors' Club

Edition(YACE) a first of its kind. The entire process which includes selection of articles, editing, designing and creativity is entirely, exclusively and originally done by the students themselves. The pages of this journal are a resplendent tribute to the boundless potential of our students and the unwavering dedication of our teachers. Each article, story, poem and illustration embodies the spirit of inquiry, growth and camaraderie that we cultivate within our school. At this juncture

I extend my sincerest gratitude to all contributors, staff and students who have worked tirelessly to make this edition a reality. Your collective efforts ensure that "FOCUS" remains an enduring source of inspiration and pride for our entire community. May this journal serve as a poignant reminder of our shared commitment to excellence in education and our relentless pursuit of shaping a brighter future.

Happy Reading!

MYSTERY OF.....Fi6

This academic year, we embark on a mission to integrate academic excellence with a strong value system. To achieve this, we recognize the need for a paradigm shift in the mindset of all stakeholders. Our school serves as a milestone, marking our growth and showcasing our creativity. We're proud to have partnered with esteemed institutions like IIT and Cambridge, and to offer exclusive resources such as Extramarks and on-campus faculties for MR. STEPHEN PAULASIR E M.Sc,.M.A., B.Ed. NEET/JEE/CA/CUET coaching. These collaborations propel our school's development to new heights, empowering our students to soar. Our vision for excellence has taken a quantum leap forward, transforming our campus into a vibrant hub of innovation and growth.

As the Principal of the school, I consider myself fortunate to be a part of an educational institution where every contributor is a learner and every day is an opportunity to discover, create and innovate. We look at ourselves as a coterie of learners, where everyone learns including our staff, students and parents. As we attain new milestones and undergo beautiful beginnings, we feel proud to state that KAMLAVATI, has expanded its infrastructure, both physical and digital to provide a conducive and vibrant environment for holistic development and progress.

As Scholars say, in science, there is only PHYSICS; the rest is stamp collecting"- Lord Kelvin. Basically from the Department of Science, I wish to share my inputs on physics in relatively to our life.

PHYSICS relates to life in numerous profound and practical ways. Here are some key points illustrating this connection:

Physics helps us understand the fundamental laws that govern the universe, such as gravity, electromagnetism and thermodynamics. This understanding informs everything from the behaviour of celestial bodies to the principles of energy transfer. Many biological processes can be explained through physics. For example the movement of muscles and bones can be analyzed using principles of mechanics.

The laws of energy transfer explain how organisms maintain homeostasis and how metabolic processes work.

Physics plays a crucial role in medical imaging and treatment. Techniques like X-rays, MRIs, and radiation therapy rely on physical principles to diagnose and treat illnesses. Many technologies that improve our daily lives are based on physics. Understanding the behavior of electrons leads to the development of computers, smartphones, and other devices. Physics principles are essential in designing solar panels, wind turbines, and other sustainable energy sources.

Physics is vital in understanding climate change, energy consumption, and the behavior of ecosystems. Models based on physical principles help predict weather patterns and assess environmental impact.

The study of physics raises philosophical questions about the nature of reality, time and space, prompting discussions that relate to consciousness and existence. Understanding the importance of physics in our life, in KAMLAVATI, we prepare the students to work on forefront ideas in science and technology in academia. They learn how to analyse complex problems which gives a strong quantitative background that can be applied in their life.

In short, Fi6 in KHSS, generates the fundamental knowledge needed for the students to promote their life and the future technological advances that will continue to drive the economic engines of the world.

> The existence of electromagnetic waves, connect our thoughts and actions with our life. Newton's law states

"Every action has an equal and opposite reaction"

A Year of Progress Innovation 2024-25

Mr. Mathan Vetrivel B.Sc., M.B.A.
Administrator

"Progress is the bridge between vision and achievement, and at Kamlavati Higher Secondary School, we walk it together with pride and purpose."

s we reflect on the academic year 2024-25, it is with immense pride that I share the significant strides and memorable moments that have defined this year for Kamlavati Higher Secondary School. The journey has been one of growth, collaboration and celebration, driven by our unwavering commitment to fostering excellence in all spheres of school administration.

One of the most notable milestones was the signing of an MoU with Dr. Sivanthi Aditanar Educational Institutions, Tiruchendur. This partnership opens new avenues for the exchange of knowledge, staff development initiatives and collaborative efforts in recruitment, setting a strong foundation for mutual growth and learning.

We were delighted to organize a rejuvenating staff tour to the serene landscapes of Marayur and Kanthaloor, fostering camaraderie and relaxation among our dedicated team. Additionally, a significant administrative leap was achieved with the introduction of advanced school management software, enhancing operational efficiency and streamlining day-to-day processes.

To honour the unwavering dedication of our staff, silver

coins of 20 and 25 grams were presented to all staff members, acknowledging their years of service. On the joyous occasion of Diwali, we distributed sweets and crackers, alongside staff bonuses, to express our gratitude and ensure everyone felt appreciated.

Our recruitment drive extended to nearby colleges, successfully bringing fresh talent into our school's teaching and administrative teams. Furthermore, we took pride in printing and distributing the school calendar, which served not only as an informational resource but also as a testament to our school's vibrant culture, reaching students and the community alike.

On the technological front, the campus witnessed a significant upgrade with the installation of high-speed internet, empowering students and staff with faster connectivity for their academic and administrative endeavours.

Each of these initiatives reflects our relentless pursuit of holistic development and the well-being of our school community. As we move forward, we remain committed to upholding the values and vision of Kamlavati Higher Secondary School, ensuring that every step we take contributes to the brighter future of our students and staff.

Ms.N.SUBBURATHINA M.C.A,M.Phil,M.A,B.Ed.,
Vice Principal

"The classroom of the future will not be defined by walls, but by the limitless potential that technology gives students to learn, collaborate and grow."

he pervasive nature of digital technology has made it an integral part of daily life. From improving convenience and accessibility to enhancing communication, productivity and entertainment, technology continues to shape the way we live, work and interact with the world around us. As technology evolves, it promises even more advancements that will continue to enrich and simplify our lives.

The integration of digital technology into education has created a more dynamic, flexible and effective learning environment. By leveraging digital tools, we can provide personalized learning experiences, increase student engagement and offer access to resources that would otherwise be unavailable. As technology continues to evolve, it holds the potential to further enhance the educational experience, ensuring that students are better prepared for the challenges and opportunities of the future. The power of digital technology lies in its ability to make learning more interactive, accessible and relevant in today's fast-paced world.

We are always exploring ways to improve the learning environment of our students, ensuring that it supports both their academic success and engagement. One of the most impactful advancements we've made in this area is the installation of LED panels in every classroom. The introduction of these modern digital tools has not only transformed the way we teach

but also the way students interact with learning materials.

The integration of LED panels into every classroom has created a more modern, efficient and engaging learning environment. These high-tech tools offer an interactive and versatile approach to teaching that not only makes learning more dynamic but also prepares students for a future driven technology by fostering engagement, encouraging collaboration and providing instant feedback. It is clear that the future of education is digital and these tools are pivotal in helping us move towards that future.

"Technology will not replace great teachers, but technology in the hands of great teachers can be transformational."

காலம் பல மாறினாலும் கண்டம் பல அழிந்தாலும் அழியாத சிறப்புடைய மொழியாக தமிழ் மொழி தீகழ்கிறது. இது இயல், இசை, நாடகம் என்னும் முத்தமிழாய் வளர்ந்து கன்னித் தமிழாய், செந்தமிழாய், வண்டமிழாய், பைந்தமிழாய் வலம் வரும் ஒரே மொழி நம் தமிழ் மொழியாகும். எண்ணற்ற புலவர்களாலும் அரசர்களாலும் சங்கம் வைத்து நடத்தப்பட்ட ஒரே மொழி தமிழ் மொழியாகும். இதனாலேயே கவிச்சக்கரவர்த்தி கம்பர் தமிழை என்றும் உள தென்தமிழ் என்று சிறப்பித்துக் கூறுகிறார். ஆம் இது அன்றும் இன்றும் என்றும் உளது. அதனால் இது தெய்வத்தமிழ்(தெய்வம் தந்த தமிழ்).

தமிழின் தனிச்சிறப்பு

தமிழ்மொழி உலகின் பழமையான மற்றும் செழித்த மொழிகளில் ஒன்றாகும் தமிழ் ஒரு மொழியைத் தாண்டி தமிழாகளின் கலாச்சாரம் வரலாறு பண்பாடு மற்றும் வாழ்வியல் அடையாளமாக விளங்குகிறது.

மாணவர்களின் முன்னேற்றத்தில் தமிழ்

தமிழ்மொழி இலக்கியம் கலை மற்றும் அறிவியல், விஞ்ஞானம் ஆகியவற்றில் ஒரு உயர்ந்த இடத்தைப் பிடித்துள்ளது. இராமாயணம், மஹாபாரதம், சிலப்பதிகாரம், திருக்குறள் மற்றும் சங்க இலக்கியங்கள் போன்றவை மாணவர்களின் வாழ்வியல் மற்றும் அறிவுத்திறனை வளர்க்கும் மிக முக்கியமான அடிப்படைகள் ஆகும்.

தமிழ் இலக்கியம் மற்றும் கவிதைகள் மாணவர்களின் சிந்தனைகளைச் செம்மையாக மாற்றுவதில் உதவுகிறது. தூய தமிழில் பேசுதல் மற்றும் எழுதுதல் திறனை மேம்படுத்துவதன் மூலம் மாணவர்கள் தங்களை நம்பிக்கையுடன் வெளிப்படுத்த முடிகிறது. மேலும் தமிழ் மொழி மூலம் மாணவர்கள் தங்கள் பண்பாட்டையும் பாரம்பரியத்தையும் அறிந்து கொண்டால் அவர்களின் அடையாளம் வலுப்படும்.

வெளிநாடுகளில் வாய்ப்புகள்

தமிழ்மொழி உலகமெங்கும் பேசப்படும் மொழியாக இருப்பதால் தமிழ் அறிவு கொண்ட மாணவர்களுக்கு உலகளாவிய வாய்ப்புகள் கிடைக்கின்றன. வியாபாரத்தின் மொழி ஆங்கிலம் தத்துவத்தின் மொழி கிரேக்கம் காதலின் மொழி லத்தின் பக்தியின் மொழி தமிழ் பக்தி வளர்ந்தால் பண்பாடு வளரும் பண்பாடு வளர்ந்தால் பார் சிறக்கும்

மேலும் நமது பாரத பிரதமா் திரு. நரேந்திரமோடி அவா்கள் வெளிநாட்டு பல்கலைக்கழகங்களில் தமிழ் இருக்கைகளை அமைத்து தமிழ் மொழிக்கு மேலும் வலுசோ்த்துள்ளாா்.

பள்ளிகளில் தமிழ்

லைமையாசிரியர்

மொழிப்பாடங்களை இணையதள பயிற்சிகள் மற்றும் டிஜிட்டல் உரைகளை உருவாக்குவது மாணவர்களுக்கு தமிழ் இலக்கியப் போட்டிகள் மற்றும் நிகழ்ச்சிகளை ஏற்பாடு செய்வது, தமிழ் மொழியை மற்ற பாடங்களுடன் ஒருங்கிணைத்துக் கற்பிக்க ஒரு தீட்டம் உருவாக்குவதுபோன்றவை ஆகும்.

தமிழ் ஒரு தேன் போன்ற மொழி மட்டுமல்ல வாழ்வில் ஒளி வீசும் ஒரு தீபமாக விளங்குகிறது. தமிழ் மொழியின் முக்கியத்துவத்தை உணர்த்தி அதை முன்னேற்றுவதற்கான முயற்சியைத் தொடர்ந்து செயல்பட்டால் மாணவர்கள் தங்கள் முன்னேற்றத்தை தமிழ் வழியாக சாதிக்க முடியும் என்பதில் ஐயமில்லை.

The quote..

' Being Sorted ... is a Skill !! '

resonates deeply within me.

he quote 'A well- organized person is a person who has a clear vision and a clear plan' resonates deeply within me. As a proud Kamlavatian, I'd like to share my experience with the standardization of our school. Our Kamlavati community has a clear vision since its inception in 1972. To further enhance the effectiveness and efficiency of our team, our management introduced the systematic approach of ISO 9001:2008 in 2009. This strategic move has brought a significant transformation in our school's operations, fostering a culture of excellence and continuous improvement.

We have collaborated with IRQS to streamline our school's operations, dividing functional areas into 17 categories, encompassing both academic and administrative aspects. For each area, a core team is assigned to establish vision, mission and objectives.

This structured approach enables us to monitor and implement corrective and preventive actions whenever necessary. To ensure continual improvement and meet the evolving demands of educational institutions, we successfully transitioned from ISO 9001:2008 to ISO 9001:2015.

This upgradation enables us to provide a conducive environment for our stake holders – teachers, students and parents –and reinforces our commitment to excellence in education.

Under the expert guidance of our Advisor, we fine- tuned our standardization areas and transitioned to **EOMS 21001:2018**. This tailored framework enables us to focus on meeting the requirements of our learners and other beneficiaries, while striving to exceed their expectations.

Through the process approach, our internal audit team, comprising trained auditors, conduct regular audits and submits reports identifying areas for correction, corrective action and preventive action. These findings facilitate follow-up action to ensure continual improvement.

Furthermore, we actively engage learners in their own learning journey, carefully considering community needs, our school's vision and mission, as well as the objectives and outcomes of the course.

In conclusion, our journey towards standardization and excellence has been a transformative one. As we continue to strive for perfection, we remain committed to provide nurturing environment that foster growth, learning and success for all our stakeholders. Together, we will shape the young minds of learners by illuminating their future and empowering them to achieve their goals.

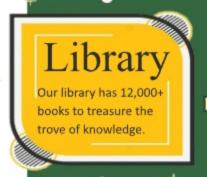

Mrs.Indira M.Sc.B.Ed.(200) & B.A (Eng)
Academic Coordinator

ur school is committed to innovation and excellence in education. We continuously seek ways to enhance the learning experience, promote academic achievement and develop well-rounded individuals. Our initiatives aim to provide a holistic learning experience, fostering academic excellence, creativity, and character development. Here are the initiatives processed in the Academic Year 2024-25

Infra Developments

- Playground Enhancements: The school playground has undergone a
 major transformation. To complement our existing basketball court,
 volleyball court and football field, we have constructed two cricket
 practice nets equipped with a turf pitch to nurture budding cricketers.
 The 200-meter athletic track has also been revamped to meet modern
 standards, ensuring our athletes have the best facilities to train and
 excel.
- Play School Outdoor Area: Our youngest learners now have an even more vibrant and engaging outdoor play area. This space has been renovated to include delightful animal statues, aeroplane models, swings and other equipments that spark imagination and physical activity.
- Go Green Campus: We are proud to mention the plantation of over 100 trees within the campus. This initiative not only enhances the aesthetic appeal of our school but also reinforces our commitment to environmental sustainability and instils eco-consciousness among our students.
- Indoor Facilities for Students: For our Play School students, we have introduced an Indoor Activity Room to provide them with a space for interactive learning and fun activities. Additionally, a dedicated Daycare Room has been set up to support working parents and ensures the well-being of our young learners in a nurturing environment.
- Library Expansion: Knowledge is power and to empower our students further, we have added more than 3,000 new books to our school library. The expanded collection offers a diverse range of resources including academic texts, fiction, biographies and reference materials, which cater to the students of all age groups.
- Academic and Learning Facilities
- 1.Our language lab provides an immersive and interactive learning environment, where students can improve their listening, speaking, reading and writing skills in various languages. By utilizing our language lab, students are enhancing their communication skills which builds confidence in to use the language, proficiently.
- 2.Our **reading wall** is designed to foster a love for reading, improve vocabulary and enhance fluency skills, ultimately strengthening the students' overall literacy abilities. The main objective of this initiative is to instill an interest for reading in students.
- 3.Our partnership with **Extra Marks** brings top-notch JEE/NEET online coaching to our students, empowering them to achieve academic excellence and secure their future in esteemed institutions.

INITIATIVES

4.Our partnership with Extra Marks brings experienced faculty to our campus, providing Grades X-XII students with offline classes and personalized guidance in critical subjects

5.Our new Personality Development class is designed to help students unlock their full potential, cultivate emotional intelligence and develop a progressive mind set. In total this initiative prepares them in successful in all aspects of life.

Extracurricular and Co-Curricular Initiatives

1. The school is pleased to introduce a range of extracurricular clubs, providing students with opportunities for exploration, skill-building and community engagement. Newly launched clubs include the Literary Club, Young Authors Club, Cyber club, Legal Club, OOBT club etc.

2.The introduction of Entrepreneurship Group provides students with hands-on experience in entrepreneurship, honing skills in ideation, market research, pitching and business planning.

3.Our innovative Art-Education program now includes **Skating and Archery**, offering students an engaging and dynamic learning experience that combines artistic expression, physical activity and skill-building.

4. The **Reading, Handwriting, Perception, Riddle, and Puzzle clubs** complement our primary cluster curriculum, providing students with additional opportunities to explore, learn and grow in a supportive and stimulating environment.

Curriculum Enhancements

 Introduced new books, including Pull out Worksheet, Aptitude and Reasoning, Hindi book with English translation, Quiz & Craft, and Short Reads

2.Our **home teacher concept** for Grade I- III ensures that students receive individualized attention, guidance and support, leading to improved academic performance and outcomes.

3.Aptitude and Reasoning classes aim to cultivate critical thinking, logical reasoning and problem-solving skills, preparing students for academic success and real-world challenges.

Peer Mentorship

Peer mentorship fosters growth through guidance and support. It boosts academic performance, confidence, and leadership for mentees while mentors develop communication and problem-solving skills. A Grade 6 student praised the initiative, highlighting its fun, stress-free learning atmosphere.

Recognition and Achievements

1.We proudly announce that 336 students have been certified through the Cambridge University English Assessment, showcasing their mastery of challenging curricula and their potential for future academic success.

2.In collaboration with IIT Madras, we provided 22 students with the opportunity to participate in the OOBT exam, further enriching their academic experience and exposure.

3.In partnership with IIT Madras, we provided students with the opportunity to pursue online BS degree programs to expand their academic horizons.

Institutional Initiatives

1.Empowering students to excel, our institution introduces Motto - Effective Learning Outcome thro' Stimulation of Thinking & Exploration (ELOSTE), a guiding principle for academic excellence and personal growth.

2. Framed new terminology: "Teachers" are now "Learning Facilitators"

3. Motivational quotes are displayed throughout the campus, inspiring students, faculty and staff to strive for excellence and reach their full potential.

"PARTNERS IN EXCELLENCE"

IIT Madras BS Degree

SCHOOL CONNECT

NEET JEE EXTRA

"Coming together is a beginning, keeping together is progress and working together is success"

Educational partners bridges strong relationship between institution, families and promoting a culture of Learning and Support. Partnership facilitates the development and sharing of innovative educational practices, Resources and Technologies. As technologies evolve, educational partnership can help schools stay aligned with current and future skill demands, ensuring that students are prepared for the jobs of tomorrow. We are proud to collaborate with the following esteemed educational partners.

Extramarks Education India Pvt Ltd:

UNLOCKING CAREER OPPORTUNITIES:

NEET and JEE are gateway exams to prestigious medical and engineering institutions, respectively. Coaching helps the students to unlock these opportunities. Extramarks Education India Private Limited is an educational technology company based in India. Extramarks provides digital learning solutions and educational content for students from kindergarten to grade 12. A comprehensive learning platform is provided to the students that includes interactive study materials, multimedia content, assessments and personalized learning tools.

Our aim is to enhance the learning experience by leveraging technology to make education more engaging and effective. The platform covers a wide range of subjects and topics, Recorded version & Live sessions of NEET/JEE foundation classes from grade 6 to 10 and exclusive live session for NEET/JEE aspirants of grade 11 and 12. As a part of our academic support, Extramarks faculties provide offline training to X and XII students.

Over the past year, Extramarks has been an integral part of our academic journey, revolutionizing the learning experience of our students. This innovative platform has not only enhanced the academic standards of our students but also significantly improved their scores, particularly in MCQs.

The interactive classes, engaging quizzes, and clear concept explanations have made learning more effective and enjoyable. Extramarks has simplified complex topics, fostering deeper understanding and consistent performance improvement.

Our students have expressed immense gratitude for the offline classes where IIT trained faculties from Bangalore, Noida and Ahmedabad are debuted in campus to train our students and cleared the students' doubts. They appreciate the management's efforts in bringing highly qualified and experienced educators from esteemed institutions.

"PARTNERS IN EXCELLENCE"

SS

IIT MADRAS

INSTITUTE OF EMINENCE

Nationally and Internationally the Indian Institute of Technology Madras is known for its excellence in technical education, basic and applied research, innovation, entrepreneurship and industrial consultancy. Though the Institute proudly bears the laureate of being No.1 engineering university in India, IIT Madras aims at providing Hands-On Experience of Career Choices for Class XI and XII students. These programs will offer a unique opportunity for students to explore different career paths and gain practical insights into their future academic journeys.

Through School Connect Program, we are committed to help young minds to take decisions about their higher education choices. They have launched programs across various disciplines to introduce students to diverse fields of study. The programs (CODE, NPTEL, GIAN and BS DEGREE) are meticulously drafted and are aligned with the goals of the National Education Policy to enhance the efficiency of course delivery as well as raises the interest and motivation levels of the students in understanding engineering and science subjects. The program includes recorded lectures, hands-on training, live interactions, assignments and computer-based assessments. In order to expand the world of technology, IITM shares its expertise with school students through OOBT (Out of the Box Thinking). This program improves creative thinking and broadens perception. Outof-the-box thinking involves solving problems in mathematics through indirect and creative approaches, using reasoning that is not immediately obvious and incorporating innovative ideas that may not be obtainable through traditional step-by-step logic. In this unique course, such thinking is emphasized by rediscovering known and unknown mathematical facts in a logical and engaging manner, offering a fresh and broader perspective.

Cambridge English Assessment CAMBRIDGE IGNITE:

In today's fast-paced, interconnected world, students need to be equipped with communication skill to succeed in their future careers, adapt to new technologies and address global challenges. In order to equip the students with critical thinking, problem solving and communication skills, Cambridge English Assessment Program by Cambridge University partnered into our curriculum. This program is designed to empower the students with language proficiency and enhance their communication skills. The Cambridge English Assessment Program is globally recognized, providing students with a certificate acknowledged by universities, employers and institutions worldwide. The introduction of Cambridge English Assessment Program by Cambridge University-UK will be a stepping stone towards our mission for the linguistic excellence.

Our baseline and diagnostic assessment measures learners' progress at each stage of the Cambridge pathway, allowing the students to identify their strengths and weaknesses and tailor the teaching effectively. Assessments are designed to be fair, valid, reliable and practicable, so that every Cambridge exam provides a true picture of a student's ability.

Our assessment gives students focus, motivation and a challenge. We assess what is the greatest value to our students - deep subject knowledge, conceptual understanding and higher order thinking skills. Linear assessment structure maximises teaching and learning time, encouraging a strong grasp of the subject being studied. This helps to support new thinking and encourages cross-curricula connections.

Cambridge Assessment's purpose is to help learners demonstrate and fulfil their potential. Through caring to make a difference in every learner for shaping education and creating a confident future for learners this assessment greatly supports and leaves a real and lasting impact.

EMPOWERING A FITTER GENERATION:

To promote physical activity, enhancing the health, happiness and success of our future leaders... the Sportyfitgen, India's premier physical education platform is on a mission to revolutionize the way we approach fitness and sports. Our vision is to create a healthier, more active generation through inclusive and structured sports programs.

Holistic Development through Sports

Sportyfitgen's specially designed curriculum caters to the physical and psychological needs of children, fostering overall development through sports. By integrating sports into education, we aim to:

- Develop motor skills, safety awareness and social competence
- Enhance emotional stability, creativity and aesthetic appreciation
- Promote cognitive development, environmental awareness and self-realization
- Empower students to showcase their talent and pursue their passion for sports

Nurturing a Healthier Generation

We believe that regular physical activity is essential for physical and mental well-being. The programs are designed to:

- Improve overall fitness and athleticism
- Develop teamwork, communication and problem-solving skills
- Boost confidence, self-esteem and emotional intelligence
- Foster a lifelong love for sports and physical activity

"A New Era of Efficiency: Enhancing Transport, Procurement and HR at Our School"

Ms.R.Sujitha MBA.

This year, our school has significantly enhanced its transport management system by introducing several new bus routes to accommodate students from long-distance areas such as Spic. Udankudi and other nearby regions. These routes have been strategically designed to ensure that students from these far-reaching areas have convenient and safe access to school, reducing their commute time and providing them with reliable transportation. To further ensure the well-being of our students, we have recruited dedicated bus caretakers who are responsible for overseeing the students on their journey, making sure they are safe, comfortable and well taken care of throughout the ride. Each bus is also equipped with GPS tracking and CCTV cameras, ensuring real-time monitoring of routes and student safety during the journey. With these improvements, we aim to offer a smoother. more organized transport experience while prioritizing the safety and care of our students. As per the guidance of our advisor, we are going to implement RFID for every student in the next academic year.

The purchase department in our school is responsible for ensuring that all necessary materials, including books and other materials are purchased and distributed efficiently. We prioritize buying textbooks early, well in advance of the school year, to guarantee that students have the required resources from the start. Once the books are received, we follow a structured and well-coordinated process to ensure each student receives their textbooks in a timely and accurate manner. In addition to books, the department also handles the purchase of other essential supplies such as stationery, teaching materials and classroom equipment, ensuring everything is available when needed. Throughout the entire

process, we work closely with our advisor, who provides valuable guidance to ensure that all purchases align with the school's educational goals and budget. This careful planning and execution helps create a smooth and efficient system that supports both teachers and students in their learning activities.

New HR policies, such as those related to attendance, monitoring the leave system, and updating entry and exit procedures, have been amended to enhance operational efficiency and accountability. These changes aim to ensure that staff adhere to clear guidelines for attendance, track leave requests accurately and follow standardized protocols for entering and exiting the premises. By implementing these updates, we aim to improve overall safety of the school and foster a more disciplined, organized work environment.

During the academic year 2024-25, recruitment was carried out by placing advertisements in both newspapers and social media platforms to reach a wider pool of potential candidates. This approach allowed us to attract diverse applicants and ensure that we found the best fit for various teaching and administrative positions.

Upgrading our recruitment procedures involved implementing a more thorough filtering process, which includes written assessments, demo lessons and one-on-one interviews to assess candidates' skills and suitability. The written assessments allow us to evaluate the candidates' subject knowledge, while demo lessons provide insight into their teaching abilities and classroom management. Following the assessments, one-on-one interviews offer a chance to better understand the candidate's personality, communication skills and alignment with the school's values and goals.

To achieve something extraordinary, the path we travel and the members we travel along should have a clear idea about the goal to be achieved, the achievements of various students and the successful travel is done in our school by various clubs. The secretaries of all the clubs and the two pilots of it are selected based on their interest. To understand the importance of the leadership and their role, the proceedings were executed with full decorum, upholding all institutional traditions.

ur Learning Facilitators' programme is designed to equip educators with the skills, knowledge and best practices necessary to create a supportive and inclusive learning environment. The program aims to enhance teaching methodologies and pedagogical skills, foster a culture of continuous learning and professional growth and develop effective classroom management and communication strategies. Through workshops, coaching, mentoring, peer observations and action research, teachers can improve their teaching effectiveness; students' learning outcome and increase collaboration and knowledge-sharing among educators. By integrating technology and digital tools into teaching practices, teachers can better address the diverse needs of the students and stay updated on the latest teaching trends. Ultimately, our Learning Facilitators' training program empowers educators to provide high-quality education and make a lasting impact on their students' lives.

s we embark on this journey to empower our children, we recognize the pivotal role that parents play in shaping their young minds. At Kamlavati, we join our hands with parents to learn effective parenting strategies, network with other parents and gain valuable insights.By organizing informative online seminars regarding higher studies, we aim to stay updated on the latest parenting trends, research and best practices. Also through this we value the opinions and perspectives of our parents. Parents get clarity on the teaching methodologies followed in our school through Parent Orientation Programme. Parents' feedback is instrumental in helping us refine our programs, services and overall approach in supporting every child's education. Together, let us navigate the complexities of modern parenting and unlock our children's full potential.

Testimonies from Parents

I am really happy and thankful that my son's studies in the esteemed School ,Kamlavati Hr.Sec.School. I am very proud to see so many positive changes in him after taking admission. The school has caring and child centered education system. My elder son is also continuing his studies in this school. The education system was different comparing those days of his pre-school. I would always recommend this school to every parents. I must say that if you have dreams for your kids then this school can add wings to them.

Mrs.Shameera F/o,S.Syed Mahfuz-Ps3 A

Dear Teachers

,"My child is studying in school from this year. I am very satisfied by seeing improvement and remarkable confidence level in my child's overall personality development, speaking skills and physical activity. I like the teaching system of The School. I am impressed of "our school motto Effective Learning Outcome thro' Stimulation of Thinking & Exploration ".I am impressed with your curriculum and teaching methods which is different from other schools. Well planned activities and competition and reading practices make my child think beyond prescribed Textbooks. I like to take this privilege to congratulate the management of the School for its endless efforts. I would like to extend my gratitude towards School and also wish and hope that these extended efforts would continue.

S. Sudali lakshmi M/O R.S.Sabareesh-PS3 B

Good Evening Ma'm.

I'm Shaakir's parent from Grade 1(A), and I'm absolutely delighted to see his remarkable progress! He's excelling in academics, drawing, speech, and dance, thanks to the encouragement and motivation from the teachers. I'm particularly grateful to his class teacher, Saranya, whose efforts have been instrumental in Shaakir's growth. Her dedication, patience, and ability to correct him with care have helped him overcome stage fear. He's now confidently expressing himself in front of people. The way the teachers make learning fun, tailoring their approach to each child's needs, is truly impressive. I'm thrilled to see Shaakir thrive in this nurturing environment. Thank you for your hard work and dedication. I'm proud to say my son is a part of the Kamlavathian family!

AYSHA BEEVI M/o Shaakir Abubacker - I A

My Daughter M.S.Sithi Suhana pursued her Kindergarten in our esteemed institution. "I'm really happy to be continuing my daughter's education here! Her experience in kindergarten has been amazing, thanks to the caring teachers and supportive management. The school's engaging activities and play-based learning approach have made learning so much fun. She has made wonderful friends and enjoyed every moment of her time there. Also she got more interest in spoken too.. She is improving herself in communication.. Reading interest also has emerged in her.. Thank you, for creating a nurturing environment that helps her grow and thrive!" Hope you guys will rock the same in future too... With love & respect,

Dear Team,

Jawahira Sulaiman M/o,Sithi suhana- PS-3 A

Dear Mentors,

We're overwhelmed with joy and gratitude as we reflect on Shehnaz's incredible growth this year! Your love, support, and dedication have helped her blossom into a confident and curious learner. The school's nurturing environment and your tireless efforts have made all the difference. We're thrilled to be part of this wonderful community! Thank you for making Shehnaz's educational journey truly special. Your hard work, engaging curriculum, and warm atmosphere have created a haven for her to grow and thrive.

Fayaz & Zainab P/o, Shehnaz-I A

Hi, My child is studying in LKG, and I am happy to have enrolled him in the right school. The school provides a safe and nurturing environment where my child feels comfortable and happy. The teachers are dedicated, approachable, and genuinely care about the students' progress. Communication with parents is clear and timely, keeping us informed about our child's growth. I appreciate the school's efforts in encouraging creativity, discipline, and positive values.

- Hepzi

M/o, Jayden- PS2 A

I'm thrilled to share my son's wonderful experience in 3rd standard at Kamlavati School! He absolutely loves the worksheets, which make learning easy, fun, and quick. The teachers' kindness, friendliness, and innovative approaches to teaching have made a significant impact. The emphasis on eco-friendliness, engaging activities, and technology integration has fostered a love for learning. He's also enjoying the chess classes, which have helped develop his critical thinking skills. Overall, I'm impressed with Kamlavati's well-rounded approach to education, which balances academics, sports, activities, and safety. Thank you for creating a nurturing environment that brings out the best in my child!

Sincerely, Jeehayasmin M A M/o, Abu Saliq -III B

Kamlavati Higher Secondary School: A Hub for Holistic Education

As a proud parent, I have had the privilege of witnessing my daughter's growth and development within the school's nurturing environment. A strong Foundation in L.K.G.My daughter's educational journey began in the L.K.G. class. The school's emphasis on hands-on experiences and interactive lessons helped foster her curiosity and creativity, laying a solid foundation for future academic success. The school's teaching philosophy is centered around student engagement and motivation. Teachers take a personalized approach, recognizing the unique strengths and abilities of each student. This dedication to individualized attention has been instrumental in fostering a love of learning within my daughter. Throughout my daughter's time at the school, I have witnessed the teachers unwavering encouragement and motivation. The school's emphasis on promoting a growth mindset has helped my daughter develop a love of learning, and I am confident that she will continue to thrive in the years to come.In conclusion, kamlavati Higher Secondary School is a shining example of educational excellence. It's commitment to providing a well-rounded education, combined with its supportive faculty and emphasis on student engagement, make it an ideal institution for students to grow and flourish.

-N.T.Jameela Hifza

PS2- C

Dear Teachers,

The students are made enthusiastic, curious and made to be positive in their attitude. The students are made to be active participants in classes through group activities. For the past 2 years the communication of the kids has improved day by day and they are good readers and communicators in English. They express and share their thoughts and ideas beyond compare. Now adays exams are conducted without scheduling, means less pressure on the kids. They have the freedom to learn without a bind. Thanking all the teachers for their hardwork, patience and dedication and thank you all the teachers for their commitment to be safe and inclusive environment.

I thank all the teachers for being a role model and their unwavering belief in my childs potential I express my sincere gratitude to Bala sundari mam, Muthudevi mam and Bala sir on my kid's pre school days. Special thanks to the school for being well disciplined, good communicative regarding kids performance and progress..

I am very happy about the school. The nurturing and safe environment at the school has made my child feel comfortable and happy. My child is very happy with school teacher. Monthly activities are also highly appreciated. We are happy with the school teacher, they are cooperative. My son is enjoying very well in the play ground as well the P.E.T period. M/o, Siddique PS2-B He likes his class teacher very much.

Seyad Ajeeba

I am writing to share my experience with Kamlavati, Making the children to learn through activity, is the best way to grasp their attention, my daughter is much intrested in doing activities, Even at home she is spending her time in doing clay models, Painting, drawing, vegetable printing making herself busy by doing something. As a parent we feel that it is a good start for our child and also we are happy about the calendar as our kids are there in the calendar they feel happy whenever they look into it. We feel proud to be a part of the Kamlavati family and grateful for the nurturing environment you provide. M/o, R.Sashini II-A

Dear Team,

A heartfelt appreciation to the school management for providing an exceptional education, fostering academic and personal growth, and maintaining a balanced focus on academics, extracurricular activities, and character development. Your dedication and effort have created a nurturing and inspiring environment, and we're grateful for the positive impact on our children. We wish the management continued success in enhancing children's education and look forward to the same excellence in the future."

F/o, Haseena & Hameeza - II B

I am highly impressed with the exceptional quality of education at our school. The dedicated teachers, well-equipped infrastructure and focus on academics, discipline, and moral values create an ideal learning environment. The encouragement of co-curricular activities and sports ensures holistic development, while regular parent-teacher interactions reflect transparency and collaboration. The school's commitment to excellence is truly commendable, and I am confident it will continue to inspire future generations.

Siva Mahalakshmi, M/o, Arun Vijit Kumar- IV C

"I just wanted to take a moment to express my appreciation for the wonderful work the school is doing. The teaching quality is exceptional, and the teachers are both knowledgeable and supportive, always going the extra mile to ensure students understand the material and feel encouraged to excel. The school facilities are well-maintained and provide a safe and stimulating environment for learning. The digital classrooms, playground, and library are all thoughtfully designed to foster both academic growth and creativity. Communication between the school and parents is excellent. We truly appreciate the regular updates and the openness to feedback, which make us feel involved in our daughter's education.Extracurricular activities are another highlight. The school offers a wide variety of programs that allow students to explore their interests and develop new skills beyond academics. These activities have greatly contributed to our daughter's confidence and personal growth.

As a parent, I am elated to share my thoughts on Kamlavati Higher Secondary School. Over the past 52 years, this institution has become an integral part of our family's life (Including many of my cousins, my siblings and mine too), and I can confidently say that it has provided an exceptional environment for mychild's growth and development. The dedicated faculty and staff at Kamlavati create a nurturing atmosphere where students are encouraged to explore their interests and strive for excellence. The teachers' commitment to fostering both academic and personal growth of the child is truly commendable. I am particularly impressed with the school's emphasis on a wellrounded education. The wide range of extracurricular activities available ensures that students have the opportunity to discover and hone their talents, be it in sports, arts or technology. The inclusive and supportive community within the school has helped my child build confidence and develop a strong sense of self. Moreover, the school's proactive approach to incorporating modern educational techniques and technology into the curriculum has been pivotal in keeping the students engaged and prepared for the future. The regular parent-teacher interactions and open communication channels reflect the school's genuine interest in collaborating with parents to ensure the best for our children. In conclusion, I believe with Almighty's will, Kamlavati has provided my child with an outstanding foundation for future success. I am grateful for the positive and enriching experiences that have shaped my child's educational journey so far. Special thanks to the academic and management leadership, for your unwavering dedication and excellence in education and a comfortable environment.

Ms.Pon Lawanya DECE., BCA.
Language Lab Coordinator

To emphasize the need of English in the technical world and to prepare them for the future job environments. Our students are equipped with Language Laboratory for good communication skill. The Language Lab is a cutting-edge facility designed to help students develop their communication, conversation and discussion skills. This lab provides an immersive language learning experience, empowering students to improve their pronunciation, fluency and overall language proficiency.

- Pronunciation Practice: Students can focus on word accent, intonation and rhythm to enhance their pronunciation skills.
- Speech Practice and Assessment: Students can practice and assess their speech, receiving instant feedback to identify areas for improvement.
- 3. **Model Pronunciation:** Students can listen to model pronunciation, enabling them to develop a more accurate and natural speech pattern.
- 4. Individual Headphones: With the provision of individual headphones, students can practice and listen without distractions, ensuring an uninterrupted learning experience.

OUTCOMES:

- Builds the LSRW skills of the students in Language.
- Develops communication skills through various language learning activities.
- Improves fluency in verbal communication.
- Enhances the ability to converse in simple and short sentences.
- Enriches vocabulary knowledge.

Kamlavati :

An Unfading Saga

s I sit down to pen my reflections on the luminous legacy of Kamlavati, my mind is transported back 25 years to when I was a wide-eyed Grade 5 student in this esteemed institution. This golden journey has been nothing short of extraordinary, leaving an indelible mark on my heart and soul. My days at Kamlavati were brimming with exhilaration, affection and transformative experiences. It was here that I truly grasped the value of time and embarked on a profound journey of self-discovery. For me, as for countless others, the aspiration to evolve into a virtuous human being took root within the nurturing embrace of Kamlavati.

Having been moulded and nurtured by the values of Kamlavati, stepping into this venerable institution as a teacher was nothing less than a dream fulfilled. The school, with its inspiring motto "ELOSTE", continually ignites my passion to strive for excellence. The serene ambience of this temple of learning, serves as a fertile ground for growth and enlightenment. To those who might question its ethos, I extend an open invitation to visit our campus. Enveloped by technological advancements and adorned with vibrant blooms, verdant greenery, medicinal herbs and a chorus of birdsong, the campus offers a sanctuary where one can truly experience nature's tranquility. Kamlavati, with its unwavering focus on the holistic development of its students, stands as a beacon of balanced education.

In my perspective, education transcends mere teaching - it is about fostering genuine learning. True education thrives on student engagement and active participation. Guided by this philosophy, this year's programs were orchestrated and executed entirely by the students themselves. The leadership skills cultivated here will undoubtedly serve as cornerstones of their future endeavors. The legacy of our alumni, who have excelled and continue to excel across diverse domains, is a testament to Kamlavati's enduring impact. The recognition they receive from premier institutions, greeted with the welcoming refrain "Oh! You are from Kamlavati. Welcome," speaks volumes of the institution's stellar reputation.

Having been an integral part of this journey for the past decade, I can confidently vouch for the institution's unparalleled accomplishments - only a fraction of which I

Learning Facilitator, Department of English.

have recounted here. To be an alumnus, educator and collaborator in Kamlavati's illustrious 50+ years is a privilege I hold dear. The myriad joys and memories this institution has bestowed upon me are treasures I shall cherish forever.

At this significant juncture, it is imperative to honor the visionaries - the Trustees, Advisors, Principals, dedicated teachers and staff - who have meticulously built this institution, brick by brick. My heartfelt gratitude and congratulations also extend to the present leadership for their relentless efforts in propelling the school to new pinnacles of excellence. In conclusion, I bow in prayer, seeking divine guidance to ensure that Kamlavati continues to illuminate lives and serve society with unwavering commitment for generations to come.

CONNECTING COMMUNITIES.

Learning Facilitator, Department of Social

My Work Hub: A Space for Growth, Learning, and Impact

The role of a teacher extends far beyond simply delivering lessons to students. It is a multifaceted job that involves not only teaching academic content but also fostering personal growth, building relationships and creating a positive environment conducive to learning. The workplace of a teacher is, therefore, much more than just a classroom—it's a dynamic, collaborative space where creativity, discipline and empathy intersect.

The Classroom: The Heart of Teaching

At the core of a teacher's workplace is the classroom. It is where learning happens, where students explore new ideas, ask questions and make discoveries. But for a teacher, the classroom is also a stage for managing a diverse group of personalities, abilities and backgrounds. It requires organization, flexibility and an understanding of each student's unique needs.

The classroom environment plays a pivotal role in shaping students experiences. A well- organized, inviting space can make a big difference in a student's engagement and success. Teachers often spend time decorating, organizing resources and adapting materials to suit various learning styles. Whether it's through the arrangement of desks, the use of visuals, or the creation of a comfortable atmosphere, teachers work diligently to create an environment that supports both learning and emotional well-being.

The Staffroom: Collaboration and Support

While the classroom is the teacher's direct interface with students, the staffroom is often the place where collaboration and support flourish. Teachers rely on their colleagues for advice, resources and emotional support. Collaboration within the staffroom can lead to the sharing of lesson plans, teaching strategies and best practices, which not only enhances individual teaching but also improves the overall educational experience for students. The staffroom is also a space for camaraderie. Teachers often face challenging days and the support of colleagues who understand the intricacies of the

profession can be invaluable. Casual conversations over lunch or shared moments of humor help ease stress and build a sense of community among educators.

Administrative Responsibilities:

Behind-the-Scenes EffortsBeyond teaching, teachers have a range of administrative responsibilities that often goes unnoticed. These include grading assignments, writing reports, creating individualized learning plans, attending meetings and participating in professional development. These tasks are essential for tracking student

progress, improving teaching practices, and aligning with the school's overall goals. While these duties can be time-consuming, they are integral to the functioning of an educational institution. Teachers also contribute to curriculum development and school-wide events, further solidifying their role in shaping not only students' academic journeys but the school's culture as well.

The Kamlavati Environment: A Supportive Network

The teacher's workplace extends beyond the classroom and staff room to include the broader school environment. Heads, such as Advisor, Administrator, Principal, Vice Principal and Head Master are all part of the ecosystem that allows teachers to focus on their core work—teaching. A strong support network ensures that teachers have the resources, materials and guidance they need to succeed.

Additionally, a healthy school culture is one where teachers feel valued, supported and empowered to make a difference. Schools that prioritize well-being, professional development and open communication foster a sense of belonging and purpose among educators. A teacher's workplace, therefore, is not just about physical spaces; it's also about the culture of respect and teamwork that underpins the entire institution.

The Evolving Nature of the Teacher's Workplace

The workplace of a teacher is constantly evolving, particularly with advances in technology. Digital platforms, educational software and virtual learning environments have become a staple in modern classrooms. Teachers now have access to a wealth of online resources, tools for engagement and platforms that facilitate communication with students and parents.

However, while technology enhances the learning experience, it also brings new challenges. Teachers must continually adapt to new methods of instruction and assessment, often balancing traditional teaching with the demands of digital education. The ability to integrate technology effectively into teaching while maintaining personal connections with students is an evolving skill set that educators must develop over time.

Conclusion: A Teacher's Workplace is a Place of Impact

In essence, a teacher's workplace is far from ordinary. It is a space where both students and educators are challenged to grow. It is where academic lessons intertwine with emotional and social learning, where professional development aligns with personal growth. Teachers shape the very fabric of society by nurturing future generations, and their workplaces are essential to make this happen.

In recognizing the complexity of a teacher's workplace, we not only acknowledge the hard work that goes into the profession but also the lasting impact teachers have on the lives of their students. The spaces in which teachers work, the relationships they build and the dedication they demonstrate all contribute to creating environments where learning flourishes—one lesson at a time.

- Yes! , The evolution of mathematics from clay tablets to calculators cannot be defined in a nutshell. Fashion is something that evolves over time in cyclic form which is also referred as a dynamic form of communication. Like fashion, mathematics — the basic atom of all the subjects and technologies has its own evolution over ages. The entire universe has its own special space for mathematics.

"Without mathematics, there cannot be any path for other subjects"-is the most used phrase by all the math teachers. To be honest, how irrefutable is the point being conveyed, sitting all alone in a calm place and thinking for a while will prove us that without numbers we cannot even pass the moment. Let that be ancient, medieval or modern age, according to the need and situation many new ideas were carried over with various inventions only with the base line as math.

In Tamil, math is called as "Kanitham" which is derived from "Kanippu" which means predicting. All the predictions for various inventions have a place for math rules, formulae and theorems – keeping all these as a basic ingredient umpteen inventions are ruling the world from dawn to dusk.

As the sands of time are running out, the usage of famous theorems are used differently in various fields but haven't not come into extinct phase and will never too! From the point of astrology prediction to the counting done by children using their little fingers, the ten numbers just the ten numbers 0, 1, 2, 3, 4, 5, 6, 7, 8 and 9 has its strong impact over centuries.

"Without mathematics, there's nothing You can do. Everything around you is mathematics. Everything around you is numbers"- Shakuntala Devi

Math: The Language of the Universe

Mathematics allows for no mistakes and yet, it's a field, where the constant evolution of ideas leads to new perspectives

77

Ms. HARITHA M.Sc., B.Ed. Department of Mathematics

"He who learns but does not think is lost. He who thinks but does not learn is great danger" - Confucius

earning and thinking should always go hand in hand. To train the brain of the students, Aptitude and Reasoning (AR) class has been introduced from Grade - 1 to Grade - 8. From the moment we had classes for AR, the question that rose in everyone's mind is "whether it is Math?", Yes but not Math alone, It has mental Math, Analytical questions, critical thinking questions, logical thinking questions and brain teasers. By learning this, students get to know about Aptitude and Reasoning and also it will stimulate their thinking capacity, decision making skill and problem solving skill. Strong reasoning skills are developed among students. Students can comprehend complex concepts, connect ideas and excel in subjects that require logical thinking, such as Mathematics and Science. Moreover in today's competitive world where problem - solving and critical thinking skills are highly valued, Reasoning and Aptitude plays a crucial role in shaping an individual's success. Reasoning and Aptitude are two significant factors that contribute to career advancement. People who think critically and solve complex problems are sought after in various industries. In the context of competitive examinations, Reasoning and Aptitude tests has its own place to bridge the student's ability and the expectations of the recruiting authority. Differences were noted in students' approach to a brain teaser from the origin to the present. Their way of connecting the inputs given in questions to find out the answer is excellent.

LEARNING SANS MUCH ADO...

हमारी धारणा - हमारा पाठशाला

कंद्रीय विद्यालय में हिंदी का एक महत्वपूर्ण स्थान है। यह भारत के कंद्रीय विद्यालय संगठन की शिक्षा पद्धित का एक मुख्य हिस्सा है, जिसमें हिंदी को राष्ट्रीय भाषा के रूप में प्रमुख स्थान दिया गया है। हिंदी को विद्यालय के पाठ्यक्रम में एक अनिवार्य विषय के रूप में शामिल किया गया है, जो छात्रों को उनकी सांस्कृतिक जड़ों और राष्ट्रीय एकता के प्रति संवेदनशील बनाता है। इस तात्पर्य पर चलने वाली विद्यालय हमारा विदयालय है।

विद्यालय का उद्देश्य है - सही मार्ग दिखाना । यह दिशा में हमारे विद्यालय अपनी जिम्मेदारियां को पूर्ण रूप से निभाने की प्रयत्न कर रहा है। विद्यार्थियों के अध्ययन के साथ उनकी प्रतिभा बढ़ाने के लिए कंप्यूटर व्यायाम शोध कार्य गेम्स आदि में नवीनता चल रहा है।

हमारे विद्यालय का कार्यक्रम

- हमारे विद्यालय में राष्ट्रीयता शिक्षा नीति नप 2020 में बताए गए कल को पाठ्यक्रम का अभिन्न हिस्सा बनने पर विशेष जोर दिया गया है।
- मानसिक लाभ: खेल के ध्यान केंद्रीय करने से क्षमता बढ़ती है।
- सामाजिक लाभ: खेल टीमवर्क नेतृत्व और दूसरों के प्रति सहानुभूति उत्पन्न बढ़ती है।
- बहुवश्यक शिक्षा का महत्व :समय विकास ,रचनात्मक विकास, समस्याओं का समाधान, करिभर के कल्प आदि कार्यों के लिए बहुत उपयोगी है।

यही कार्यक्रम बच्चों को एक नया दृष्टिकोण से सोचने और सीखने का अवसर प्रदान करती है। उत्तर भारत के विद्यालयों से होड़ लगाने के लिए हमारा विद्यालय को तैयार करना ही हमारा लक्ष्य है।

Mr. N A Saravanan M.Sc., B.Ed., M.A(HIN)

Department of Hindi

In the halls of learning, where I once roam
Now I stand as a guide, a physics teacher's home
My eyes, once bright with curiosity and wonder
Now shine with passion, as I share with thunder

My focus is sharp, like a laser's beam Illuminating paths, for young minds to dream Through equations and laws, I lead the way Helping students discover, night and day

In the lab, we experiment and explore
Measuring, calculating, and prying for more
With each new finding, our eyes light up bright
As the thrill of discovery, ignites our delight

My focus unwavering, like a star in the night
I nurture and inspire, with all my might
For in the world of Physics, lies beauty and truth
And I'm honored to share, this journey of youth

At this school, my alma mater dear, I've come full circle, with a heart that's clear My focus is on teaching, guiding, and sharing Helping shape young minds, with love, care, and daring.

Ms. R. Redeema Fernando M.Sc., B.Ed.
Department of Physics

Basking the Precious Moments

FUTURISTIC EDUCATION A PERSPECTIVE

Ms. S.DHANALAKSHMI M.Sc., M.Phil., M.Ed., M.A (Edn.) Department of Chemistry

it now reflects the typical stages of mental development that children go through. It has grown lively and skill focused.

A futuristic school is a modern type that uses superior generations and new approaches to teach and to help students learn better. Students can use such things as virtual facts, smart computers and special programs that assist their learning in different ways. The classrooms have innovative solutions like interactive screens, digital books, library, virtual lab and equipment that help students work collectively on projects. The teachers in these schools are like guides who help students analyze problems and identify solutions. In futuristic school, students use advanced technology like tablets and laptops for interactive learning, while traditional schools rely more on textbooks and traditional teaching methods. Futuristic schools prioritize collaboration and project based learning, where students work together on real world problems, unlike regular schools that often follow a structured curriculum with individual assessment. Futuristic schools also offer flexible learning spaces, adapting to various teaching styles and student needs, while regular schools typically have fixed classrooms. Moreover, futuristic schools may specialize in areas like coding and robotics, preparing students for technology driven careers, unlike regular schools that focus on providing a well-rounded education. Overall, futuristic schools focus on preparing students for the challenges of tomorrow's world, while regular schools stick to established methods and standards. The focus of creating a futuristic school is to put the vision intro practice. This involves gaining a deeper understanding of new concepts. Strategies for defining and refining the vision include conducting relevant research, exploring innovative learning models and seeking new perspectives and ideas. Indian education system has succeeded in the view that at NASA, many of world's best brains are working, in which 20% are Indians and all of them are educated in India and also many people are holding high

The Indian education

system has undergone significant changes over the years, evolving from ancient traditions to a modern framework. This article explores the historical context, current structure, reforms, challenges and future prospects of education in India. The ancient education system in India was characterized by its holistic approach to learning. Students, known as shishyas, lived with their guru in a system called Gurukul. This setup emphasized moral and spiritual development, focusing on values such as self- reliance and integrity. Notably, Nalanda was one of the oldest universities in the world attracting students globally. The British colonical rule brought significant changes to the education system. Reforms were introduced through various recommendations, such as the Mocaulay Committee and Woods' Despatch. These changes aimed to create a workforce that could serve the British administration, leading to a shift from traditional learning to a more structured, formal education system. After India gained independence in 1947, the government recognized education as a fundamental right.

The Current Education System in India emphasizes fostering qualities like confidence, good practices, sympathy and imagination. It is a complete blend of culture, history and human values. India is a democratic country guided by the principles of the Constitution. Article 21A provide free and compulsory education of all children in the age group of six to fourteen years. India has always paid special attention to the education sector. India has become the third largest education and development sector in the world, behind China and the United States. The current educational system in India is more theory focused than career focused. The Indian educational system , however, has undergone a significant change as a result of the New Education Policy, in 2020. The division of stages has been changed as a result of the New Nation Educational Policy (NEP) so that posts in India and abroad who received their education in India. Method of teaching needs a relook.

The world of education is undergoing major transformations in today's quickly changing global environment. So education needs to involve more of active learning. Based on 21st century demands our School promotes critical thinking, skill based learning and application based knowledge while nurturing analytical thinking among students. The primary focus on education is shifted from memorizing facts by heart to real world application. Through project based learning teachers push students to tackle real world challenges in order to strengthen their ability to analyze and resolve problems. Experiential learning that involves students in direct experiences and reflection to help them learn and develop professional and intellectual skills. Learning subjects through interactive games, virtual laboratory, digital board, animation videos have made learning easier and more responsive, which benefits both students and teachers, focusing on building life skills such as collaboration, team work, communication and resilience. Our aim is to inculcate the value of empathy, respect for others, honesty, cleanliness, courtesy, scientific temper, responsibility and equality. Focusing Our Motto ELOSTE (Effective Learning Outcomes thro' Stimulation of Thinking and Exploration) learning is done through action, experience, discovery, by doing and exploring.

Benjamin Frankline rightly said, "Tell me and I forget, teach me and I remember, involve me and I learn." The future of the Indian education system looks promising with a focus on global competitiveness, innovative teaching methods and sustainable development. However, it requires continuous effort and commitment from all stakeholders to realize this vision.

E-COMMERCE

AS A CATALYST FOR GLOBAL ECONOMY

Ms. Ratna S.Pandian M.Com., B.Ed., M.Phil.

Department of Commerce

Electronic commerce or ecommerce is the buying and selling of goods and services over the internet. E-commerce can be conducted on computers, tablets, smartphones, and other smart devices.

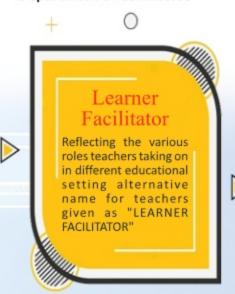

E-commerce has experienced unprecedented growth in recent years, with an exponential rise in online transactions and digital marketplaces. This surge has significantly contributed to the expansion of global trade, transcending geographical boundaries and fostering international economic integration.

The E- commerce has created millions of jobs globally, ranging from logistics and supply chain management to software development and customer service.

The digitization of commercial activities has led to increased productivity, efficiency, and market access, resulting in a measurable positive effect on national economic indicators.

E-commerce has proven to be a game-changer for small and medium-sized enterprises (SMEs), providing them with a platform to reach the global audience.

During COVID lockdowns and restrictions, e-commerce platforms served as a lifeline for businesses and consumers alike, ensuring continuity in economic activities when traditional channels faced disruptions.

The Atal Innovation Mission (AIM)

It is a flagship initiative of the Government of India, to promote innovation and entrepreneurship across the country through the Atal Tinkering Labs (ATL). Our Lab is equipped with 21st century tools and technologies such as Internet of Things(IoT), 3D printing, rapid prototyping tools, robotics, miniaturized electronics, do-it-yourself kits and many more.

Our Atal Lab acts as workspaces where young minds can learn innovation skills sculpt ideas through hands-on activities and learn by doing.

Innovation will play a vital role in the goal of Viksit Bharat (Developed India) by 2047 and our young innovators will be the driving force behind future discoveries and innovations. Keeping in mind the demands of the growing economy and global growth in innovation development, the ATL initiative, is tapping on the intrinsic imaginative and problem-solving knack of children and equipping them with the required skills of the future.

ATL is aligned with the vision of the **New Education Policy 2020**, emphasizing innovation,
problem-solving and entrepreneurship skills among
school children.

The Road to Success

Students from our school participated in statelevel science competitions, showcasing their skills and gaining recognition for their hard work and dedication.

Participating in these competitions help them solve real-life problems. Our students apply their STEM (Science, Technology, Engineering and Mathematics) skills to solve real-world problems.

Students showcasing their projects in State Level Project Expo at Dr.Sivanthi Aditanar Engineering College, Tiruchendur.

Regional Teacher of Change (RToC) is the pivotal member of Atal Innovation Mission (AIM) ecosystem, representing the best mentor and ATL In-charge from across the States, selected for his/her exemplary contribution and guiding their communities effectively. Being the RToC of Thoothukud District, I take great pride in making students from our school to participate in state-level science competitions to showcase their skills and gain recognition for their hard work and dedication. The pride escalated when our school is selected as the ATL of the month (August 2024)

State Level Hackathon

Our student A.N.Abishek Ram's project – Smart Voting Machine (SVM) got selected to display in "InnovaTN", the Tamil Nadu State Hackathon held in Erode. InnovaTN brought together 517 teams from over 35 districts across Tamil Nadu and Puducherry. We are excited to say our student's project is one among the top 124 teams in grand finale. Professors and Doctorates from various higher educational institutes, CEOs of Atal Incubation Centers participated as jury members in the competition.

Our school develops ATL student-mentors (Secretary) by having an Innovation club at school level where students can take ownership of ATL activities. One such initiative is Tinker Champs Club, where 30+ students from different classes from 6th to 12th are the members of the club. In the club, new joiners are taught the various components used in the lab and on the other hand experienced champs involve themselves in converting their ideas into project.

Alumnus Return to ATL Lab:

Bridging the Gap Between Experience and Innovation

V.Anis Sankar, Alumnus of our school recently returned to his alma matter to provide hands-on training and mentorship to current students in the school's Atal Tinkering Lab (ATL). This interaction between alumni and students marked an important milestone in bridging the gap between academic learning and real-world application.

Empowering Girls In ATL

Women remain under represented in STEM careers which is still a significant gender gap in technical fields, especially in innovation and entrepreneurship. Recognizing this, our school has actively worked to create a more inclusive environment in its ATL lab, with the aim of providing equal opportunities for all students, regardless of gender. Our students participated in She STEM 2024 competition organized by Atal Innovation Mission.

@kamlavatiataltuticorin3417

 Ms. Libia Narayani M.A(Eng.), Praveen(Hin) Department of English

Upon joining, I made keen observations about the school's distinct educational methods, which guarantee better learning outcomes for students. Innovative teaching approaches enhance students' concentration and ability to absorb information.

Some of the notable features of this institution includes:

- 1. Holistic education
- 2. Community engagement
- 3. Physical well-being
- 4. Dedicated faculties
- Excellent infrastructure
- Academic excellence

We focus on holistic excellence, guiding students through the FOCUS approach:

F - FIND:

Identify your purpose and goals

O – ORGANIZE:

Gather necessary resources and information

C – COMMIT:

Dedicate yourself to education and tasks

U - UTILIZE:

Make the most of your time

S - SUCCEED:

Achieve success by following these steps

I am delighted to say that this institution has exceeded my expectations and I feel privileged to be a part of this exceptional educational community.

ECSTASY OF SPORTS

Celebration in sports means acknowledging that every player, every moment and every challenge matters

MUSCLE BUZZ...

BOUNDARY BREAKERS!

Our school team made a clean sweep at the Wavoo Trophy Tournament, among the 8 participated teams,our team emerged victorious, clinching: Man of the Match, Man of the Series, and OVERALL TROPHY

Our Cricket team has emerged as one of the top teams of Tuticorin Dist. to participate in Junior Super Kings -T20- Championship 2023-24, organized by Chennai Super Kings!

U/17 Girls Football Winners

Dakshin Sahodaya Football Tournament @ Pearls Public School Arumuganeri

S. Kaniskaa, S. Shanmuga Preethi, R.V. Sathana and S. Rama Lakshmi of grade XI as a team secured the top spot in the Divisional Level Chess Tournament organized by Dakshin Sahodaya Schools Complex.

Dakshin Sahodaya Basketball Tournament @ King School, Valliyoor

R. Devi Shri of Grade XII secured third place in the State-Level Silambam Competition 2024 (U-19 category), showcasing exceptional skills. Honored by the Tamil Nadu Chief Minister in Chennai and the Tuticorin District CEO, her achievement reflects remarkable dedication and passion.

ACHIEVEMENTS

Rharathiyar Day/Renublic Day Games and Sports 2024.25, ordanized by the School Education Department, TamilNadu

U/19 Girls Basketball Winners

DRIBBLING TO VICTORY!

U/17 Boys Basketball Winners

U-19 Girls Football Team has made us proud by emerging as Runner at the Zonal Level, organized by School Education Department, TamilNadu.

Our U-19 Boys Cricket Team has achieved the distinction of District
Runners-Up and qualifying for the prestigious State-Level CM Trophy, held in Chennai
As a recognition of their outstanding achievement team members received
a cash award of Rs. 2000 per head (30,000 per team).

F@CUS

Honorable trustee Shri.G.Srinivasan Sr.EVP DCW.,inaugurated Dakshin Sahodaya Cricket Tournament held @ KHSS

ACHIEVEMENTS

- R.B.Vinstan, S.Vishvesh, N.Atchay Shree, V.Munishwar got selected to present our district in State Level CM trophy, Cricket Tournament.
- B. Rifa and S. Aishwarya of Grade XI from U-19 category got selected to represent our district in State Level CM Trophy Football Tournament.
- U-17 Girls Team has made us proud by emerging as WINNERS at the Divisional Level Football Tournament organized by Dakshin Sahodaya Schools Complex.
- · R. Devi Shri and G. Bala Kartheesan of Grade XII are SELECTED to participate in the State-Level Silambam Competition-2025

ATHLETIC EXCELLENCE!

M. Tharanesh of Grade XI has made us proud by winning:

BRONZE MEDAL in Long Jump & 60m Running. He Secured 5th position in State-Level 60m Running at 32nd State Level Junior Championship held at Nehru Stadium, Chennai organized by the Sports Authority of India. Additionally, Tharanesh secured BRONZE MEDAL in Medley Relay at the 38th

V. Nithish Grade VI has Secured SILVER MEDAL in Long Jump, organized by Dakshin Sahodaya Schools Complex.

RECORD SMASHER

S. Maha Anbarasi & S.Maha Anburaia have successfully set a record in the Cholan Book of World Records by holding the challenging Kandharasanam pose CONTINUOUSLY FOR 15 MINUTES, organized by Tamil Nadu Sports Yoga Foundation and Noble Book of World Records by performing Supta Vajrasana for an impressive 15 MINUTES! organized by Pranava Yogalayam, Tamil Nadu, India.

A.Tessie Magdalene has set a record in the Noble Book of World Records by performing Supta Vajrasana for an impressive 15 MINUTES! organized by Pranava Tamil Nadu, India.

THE KABADDI QUEEN

Mugil Kavya, Grade X, has been selected to represent our district team in the 34th State level Sub-Junior Girls Kabaddi Championship, organized by the Amateur Kabaddi Association. Tuticorin District.

STATE LEVEL SUB-JUNIOR WOMEN'S KABADDI CHAMPIONSHIP

N. Nethra of Grade XI brought home the glory by securing 2nd position in the Divisional Level Weightlifting CM Trophy!

MUSCLE ATHLETE

B. Aadhiya of Grade XI has made us proud by:

Securing 2nd position in the district level and 5TH position in the STATE-LEVEL CM TROPHY Weightlifting Tournament, Clearing an impressive 75 kg! She was honoured with the prestigious title "Singapenney" for successfully clearing 60kg, and secured a well-deserved Silver Medal in the competition organized by Kavery Hospital, Tirunelveli.

OUR SCHOOL MODERN LIBRARY

44

WHERE KNOWLEDGE MEETS IMAGINATION!

Ms. SHARMILA DEVI B.Sc., MLIS. Librarian

explore why libraries are so important for school students There's something profoundly democratic about a library, it unites everyone.

A library doesn't care who you are, where you come from or how much money you have, it only seeks a good learner and a good explorer. It has access to ageappropriate books develops early literacy. Storybooks with pictures and simple text built vocabulary and comprehension. Listening to stories develops language skills. Our libraries often have educational tools like puzzles, flashcards and learning kits. Non-fiction books introduce topics like animals, colors, shapes and seasons. Access to books at different reading levels helps students improve fluency and comprehension. Fiction, nonfiction, and chapter books are introduced to children. Resources like encyclopedias, atlases, and subjectspecific books that aid in completing projects and assignments. There are books that teaches art and crafts, storytelling, and inspire to write. Libraries often host creative writing workshops, drawing competitions, or storytelling sessions. For higher secondary classes Library is designed to uplift academic needs of the students' by encouraging independent learning and critical thinking through textbooks, reference books, exam preparation guides and practice materials for all subjects. For easy identification, educational magazines, current affairs, and science periodicals, journal recommendations are

displayed. Our library enriched with competitive exam reference book such as NEET, JEE, CLAT, CUET etc. Explain to the child the importance of sharing books with others who might not have access to them. We encourage it as a habit in our students to donate books each year on their birthday. Donating books on a child's birthday is a meaningful and heartwarming way to celebrate! It teaches children the value of giving, sharing knowledge and making a positive impact on others. Reading is a golden key to unlock a bright future for all students. Library encourages students to read books for pleasure and academic growth. By visiting the library regularly, students can publish new books and become young authors. In our libraries we also have programs and reading challenges that motivate students to read more.

Library is one of the few places where the divine silence is gifted. In a school full of noise, it offers a refuge where thoughts can breathe, where you can hear yourself think without the rush of time or the pressure of distractions. The quiet hum of turning pages is like a heartbeat, steady and calm.

In conclusion, our library plays an important role in the knowledge of our school students. They provide access to a wide range of information, help students develop important skills and a love for learning, studying, reading and exploring new ideas. The library is an invaluable resource that helps students succeed both academically and personally.

So, make sure to visit our school library often and take full advantage of all its wonderful resources.

"People born to achieve are always with books"

"Learning is an adventure, and curiosity is the map."

Ms.R.Saranya M.A., B.Ed.
Department of English

By instilling a sense of curiosity, learners are helped to develop a love for learning that will stay with them throughout their lives. In the primary cluster, the shift is focused from traditional writing notes exercises to skill-based learning. This approach empowers students to develop essential skills that enable them to think critically, solve problems and communicate effectively.

To quote Albert Einstein, the Theoretical Physicist:

"Education is not the learning of facts, but the training of the mind to think."

This campus strongly believes in and are progressing on this quest. In English lessons, the grades 1 & 2 concentrate on two key areas: sight words and new words. By mastering these fundamental components, students acquire the skills to:

- 1. Decode unfamiliar words
- 2. Expand vocabulary
- 3. Develop critical thinking

UNIQUE QUESTIONING TECHNIQUES

To assess students' understanding, innovative questioning methods are employed that:

- 1. Encourage critical thinking
- 2. Focus on skill-based assessment

PEDAGOGY IN PLAY: HEART TO HEART, HAND TO HAND

"Playfulness is the spark that ignites the flame of curiosity." Concepts are strengthened through stories, games and activities by educationists in the cluster. "Experience is regarded as the canvas on which knowledge is painted." Learning is facilitated by allowing learners to learn through doing.

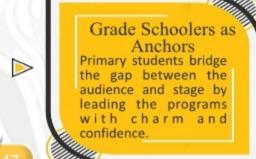

STRESS-FREE ZONE:

By prioritizing mental health and happiness, this institution has become a beacon of positivity, where learners love to learn. The campus' Stress-Free Zone ensures:

- Freedom to Express: Young minds have the space to share their thoughts and feelings without hesitation or fear of judgment.
- 2. **Open Communication**: This campus encourages pupils to communicate freely with tutors and peers, promoting a sense of community and trust.
- 3. **Minimal Pressure**: This academic hub avoids putting undue pressure on students, allowing them to learn and grow at their own pace.
- Supportive Environment: The learning experts are always available to provide guidance and support, ensuring students feel secure and confident.

THE BEST OF THE BEST:

The young voices lead and organize the assemblies and events. Confident learners are completing their assessments independently, showcasing their growth and development.

KARUNA CLUB

SS

<u>Pilots</u>

Ms. M. Judies Poobala Rayal M.Sc. B.Ed

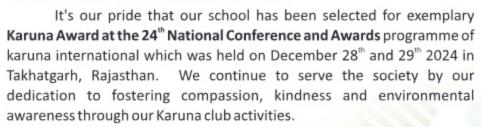

Ms. A. Prabha B.Sc., B.Ed Mr. M. Senthil M.A., B.Ed.

ur Karuna Club Motto is "Love and compassion are necessities, not luxuries, without these humanity cannot survive". Our students have performed various activities to inculcate the values of kindness and compassion. We all put our hands together with our management and helped many people in our surroundings. Students performed various programs such as vegan life style, awareness programmes, Gosalai visit, visit to old age home and orphanage, etc. Also we have donated funds and necessary things for the affected people in flood in order to nurture human values in students. Through this, the students understand the importance of compassion, empathy, environment, ethical and healthy path of life.

LITERACY CLUB

"Empowering Young Minds Through the Power of Language"

Pilots

Ms. A. Nirmina Miranda M.A., B.Com., B.Ed. Ms. E.Gomathi Devi Mont., B.Lit., M.A

iteracy Club offers an enriching environment where students in grades 6 to 8 can refine their reading and writing abilities. This club serves as platforms for students to not only enhance their academic skills but also cultivate a genuine passion for literature, Promote creativity and sharpen critical thinking.

The primary goal of Literacy Club is to support students in their literacy journey, ensuring they gain proficiency in reading, writing and analysis. Through discussions, book reviews and creative writing activities, this club encourages intellectual curiosity and provides a space for students to engage with diverse texts, both fictional and non-fictional.

Activities done:

- Reading Story Books
- · Story Time Videos
- Never Ending Story
- Word Ladder
- **Word Formation**
- On the Spot Poem Writing
- · Creating One's Own Story
- · Word Of The Day

Benefits:

Improved Skills: Enhances reading, writing and vocabulary.

Encourages Reading: Creates a love for reading and exposes members to diverse genres.

Critical Thinking: Promotes analysis, discussion and problem-solving.

Social Interaction: Builds connections and friendships within a community.

Communication: Boosts public speaking, listening and sharing ideas.

Lifelong Learning: Encourages continuous personal and intellectual growth.

Resource Access: Provides access to books and educational materials.

Academic and Career Success: Improves literacy, benefiting academics and professional life.

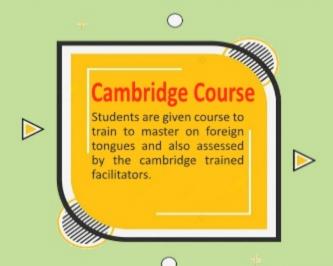

Creativity: Inspires creative thinking and expression.

Empowerment: Increases cultural awareness and confidence in sharing ideas.

In addition to academic growth, Literacy Club promotes a sense of being with the community, where students can share ideas, collaborate on projects and exchange perspectives. This interaction nurtures social skills, selfconfidence and a deeper understanding of the world around them.

Overall, Literacy Club is more than just educational spaces; it is transformative experience that empower students to become thoughtful, expressive and informed individuals. By participating in this club, students gain essential tools for lifelong learning and personal development.

Out of Box Thinking (OOBT) through Mathematics

Ms. A. Muthu Selvi B.Sc., B.Ed.,

In partnership with IIT Madras, we launched the Out of Box Thinking (OOBT) programme to uphold a futuristic approach to learning. This innovative platform encourages students to think creatively, develop problem-solving skills and explore unconventional methods in mathematics.

Pilot

Objectives:

- Develop Creative Thinking: Encourage students to think creatively and approach problems from unique angles.
- Logical Reasoning: Apply logical reasoning to solve complex problems.
- Competitive Exam Preparation: Prepare students for competitive exams that require out-of-the-box thinking.
- Exploring Unconventional Methods: Encourage students to explore unconventional methods and think outside traditional mathematics.

Activities:

- 1. **Puzzle Maths**: Engaged students with puzzle-based learning (Loop the Loop, Spoke, Kakuro Nanogram, Calendar Maths)
- Odd & Even: Developed critical thinking skills through Odd & Even exercises
- 3. **Tuning Technique**: Enhanced problem-solving skills using the Tuning Technique
- 4. Number Trip Game: Made learning fun with the

Number Trip Game

- Doing & Undoing: Encouraged students to think creatively through doing & undoing exercises.
- 6. **Visualized Maths**: Used visual aids to make mathematics more engaging and interactive.
- 7. Who Am I: Developed critical thinking skills through the "Who Am I" game.
- 8. **Divisibility Rules**: Taught students divisibility rules to enhance their mathematical skills.
- Missing Digits: Encouraged students to think critically through Missing Digits exercises.

Achievement:

We successfully sent 20 students to attend the first-level exam, marking a significant milestone in our OOBT journey.

This programme has not only enhanced our students' mathematical skills but also encouraged them to think creatively and approach problems with confidence. We look forward to continuing this innovative program and there by stimulate a love for mathematics in our students.

In a world where communication is the key factor, developing creativity and confidence in young minds is also essential. The Young Authors Club is a pioneering initiative that empowers students to tap into their imagination, develop their writing skills and become effective communicators.

Unlocking 360° Thinking

The club's primary objective is to stimulate the thought process of its members by encouraging 360° thinking. This involves crafting compelling stories, leveraging vocabulary and expressing thoughts through engaging actions, all while presenting in front of their peers. By doing so, students develop a unique ability to think creatively, making connections between seemingly disparate ideas.

Building Confidence through Creative Expression

Through the Young Authors Club, students harness their creativity to develop a rich vocabulary and

better grammar understanding. As they explore the world of words, they build confidence in their ability to express themselves effectively. This, in turn, enables them to become proficient public speakers, capable of articulating their thoughts and ideas with clarity and conviction.

Mastering the Art of Communication

The club also places a strong emphasis on mastering idiomatic expressions, which are completed with appropriate slang and accent. By doing so, the students gain a deeper understanding of the nuances of language, enabling them to communicate more effectively with people from diverse backgrounds.

Empowering Young Minds

The Young Authors Club is more than just a creative outlet – it's a platform for students to discover their voice, develop their skills and build their confidence. By providing a supportive and stimulating environment, the club empowers young minds to become creative thinkers, effective communicators and passionate storytellers.

Get Ready to Be Inspired!

So, get ready to dive into the world of ideas, inspiration and creativity. Our authors' magazine is set to ignite your imagination, spark new thoughts and leave your feeling motivated and energized.

"Building Digital Defenders of Tomorrow"

<u>Pilot</u> **Mr.A.Anuranjith, M.Sc,B.Ed.** Department of Computer Science

corner of the world is "Internet and Technology is the part and parcel of our life". Though the statement holds complete sense; people have forgotten that those two are actually a two sided knife. The way we use them matters! A growth always has its own pros and cons, like the internet has its cons along with the growth of technology. The paramount con to be focused is how people are using the technology.

As Yin and Yang coexist, technology is used in a positive as well as negative manner by the people by the way they use it. For all the fields of life viz., educational, medicinal, judicial, telecommunications, banking, connecting latitudes etc. technology is playing a pivotal role. The reason behind all the process getting done without any interruption is technology, which also led us to move forward in a developed phase.

When the downside is spotted, the pathetic one is when young minds are getting distracted with various cyber-crimes like hacking, data breeches, crypto jacking, online extortion, stalking and child abuse. Before getting a complete positive idea about the tech path they are corrupted by all the negatives of technology without having the awareness, that there are many legal and regulatory responses to the cyber-crime like cyber-crime laws, cyber-security measures, penalties, in case of need when the issue span across the network International Cooperation will also interlude.

To have a check and as a social responsible institution, Cyber Club in our school is educating the students about the safe usage of digital platform. Students are regularly provided with awareness and ideas about cyber-crimes that are prevailing today.

To prevent themselves from all these crimes that are threatening us, we make them aware of some preventive measures that can be considered at all cost in an effective manner.

Cyber Helpline: 1930

Cybercrime.gov.in

Ms.Jenifer M.Sc., B.Ed.

Ms.Theboral B.Sc., B.Ed.

Riddle club is a platform for students to exercise critical thinking, creativity and problem-solving skills through brain teasers, puzzles and logic games. Students are engaged in a creative and dynamic way to develop thinking skills, including...

- Critical thinking
- Problem-solving
- Creativity
- Language skills

Benefits:

- Boosts Confidence: Students step out of their comfort zone and build self-assurance.
- Develops Inquiry Skills: Students learn to ask the right questions to gather information and find answers.

DRAWING CLUB

"The best way to learn to draw is to draw."

The Drawing Club is a creative community where students come together to explore and express their imagination. The club fosters artistic growth and development through various drawing activities and workshops. The students learn different techniques, experiment with various mediums and develop their unique style. The club provides a supportive environment for the students to share their work, receive feedback and learn from one another. The students participate in drawing sessions, art competitions and exhibitions. The Club helps build confidence, creativity. and critical thinking skills. It's a great way for the students to explore their artistic side and develop their passion for drawing. The objective of the Drawing Club is to provide the students with a creative space to develop their artistic skills by experimenting with different drawing techniques and styles.

Enhancing Artistic Skills and Expressing Creativity: The Drawing Club offers students the chance to explore and refine their artistic abilities.

- Interdisciplinary Learning: Activities incorporate maths, science and other subjects to develop a holistic understanding.
- Cultivates Deeper Thinking: Challenging questions and puzzles promote critical thinking and problem-solving skills.

Activities:

- Puzzle Solving Sessions
- Logic Games
- Word play
- By participating in the Riddle Club, students can develop a range of essential skills while having fun.

<u>Pilots</u>

Mr.Sundar Kumar T.T.C.DP

Ms.Selvasathya B.C.A

Expanding Artistic Horizons: The students are advancing towards more sophisticated techniques in their artistic journey. The current focus is on mastering pencil shading, where the students practice creating depth and texture using different shading techniques.

A Platform for Self-Expression and Growth: The Drawing Club is more than just a space to practice art; it's a platform for self-expression. In the Drawing Club, the Students are not just learning how to draw, they are discovering the power of art as a mode of communication and expression.

SPELL BEE CLUB

"Spelling is the Foundation of Literacy."

Pilot

Ms.V.Nana Arunathepiga M.A., B.Ed.

The Spell Bee Club is a fun and interactive way for the students to learn and improve their spelling skills. The club is designed to encourage a love for learning and reading. Weekly spelling challenges and quizzes help the students to recognize and spell simple words. Word games and puzzles make learning more fun and engaging. The club provides a supportive environment for the students to learn and grow. The students develop phonetic awareness, vocabulary and language skills. The club boosts confidence and self-esteem through achievement. Students have fun while learning and developing their spelling skills. The Spell Bee Club is a great way to lay the foundation for future reading and writing skill

Activities:

- 1. Weekly spelling challenges and guizzes
- 2. Word games (Bingo, Word Searches)
- 3. Puzzles (Crosswords, Anagrams, Word Jumbles)
- 4. Spell bee competitions
- Storytelling and reading sessions

Innovative Worksheets:

- 1. Word search puzzles with themed vocabulary
- Crossword puzzles with pictures and clues
- Word scrambles with fun illustrations
- 4. Spelling mazes and labyrinth puzzles
- Create-your-own-story worksheets with word banks

Benefits:

- 1. Instills a love for learning and reading
- 2. Provides a supportive environment for students to learn and grow
- 3. Prepare the students for future reading and writing skill
- 2. Crossword puzzles with pictures and clues
- 3. Word scrambles with fun illustrations
- 4. Spelling mazes and labyrinth puzzles
- Create-your-own-story worksheets with word banks

Pilot

Mr. Saravanan M.Sc., B.Ed., M.A(Hin)

The Scouts and Guides have been functioning exceptionally well, creating an environment of enthusiasm and active participation among the students. The students of scouts and guides have consistently acted as role models for others, setting high standards of discipline and teamwork. As front runners in all the programs, they have demonstrated leadership and dedication, earned recognition and appreciation. Their efforts have been rewarded with various prestigious awards, reflecting their commitment to excel in their service to community. The students have attended many camps like Dithiya Soban and Thrithiya Soban to groom themselves.

Handwriting Cl

"A person's handwriting is a window to their thoughts and feelin

Ms.J.Priyadharshini B.A., B.Ed. Ms.P.Jerina B.Sc., B.Ed.

Handwriting plays a vital role in a student's cognitive development and educational journey. Despite advancements in technology, handwriting remains a significant aspect of a student's overall development.

Focus on Cursive Handwriting

Here, teachers emphasize the importance of cursive handwriting. The goal is to help students master this essential skill.

The Objectives of the club are

- 1. Improve students' cursive handwriting clarity and legibility
- 2. Develop speed and accuracy in writing
- 3. Foster creativity through cursive writing
- 4. Boost confidence in written communication
- 5. Maintain the value of handwriting in daily life

Benefits of Handwriting Club:

- Improved Letter Formation: Students form letters with clarity, consistent size, shape, and spacing.
- 2. Consistent Writing Style: Students develop a uniform handwriting style, improving legibility.
- 3. Correct Grip: Teachers help students adapt the proper grip on writing tools, improving comfort and handwriting efficiency.

Mentors on this club offer personalized guidance and support to help students achieve excellence in handwriting. By emphasizing cursive handwriting, students are empowered with a lifelong skill that enhances their academic success and beyond.

SCIENCE CLU

The Magic of Science

Science is more than just a subject; it's a key that unlocks the mysteries of the universe. It's a detective's lens through which we examine clues, piece together evidence and solve puzzles. Science inspires hope, drives innovation and empowers us to tackle global challenges.

Evolution of Science Club

Our science club journey began with:

- Framing an engaging syllabus tailored to children's
- Conducting easy, hands-on experiments
- Sharing interesting facts and explanations
- Introducing advanced concepts to spark curiosity

Science Club in Our School

In our science club, primary students:

- Learn fascinating science facts
- Conduct experiments, such as floating eggs in salt water
- · Explore topics from their science curriculum "Education is not learning of facts but the training of the mind to think."

Ms.M.Sadhana B.Sc., B.Ed. Ms.S. Divya B.Sc., B.Ed.

- Develop inquiry, thinking and discussion skills Objectives of Science Club
- Nurturing interest in science and exploration habits
- Providing opportunities for science-related activities and knowledge enhancement
- Applying science to daily life
- Adding a practical dimension to the syllabus

Benefits of Learning Science Facts

By participating in our science club, students:

- Correlate classroom learning with practical experiences
- Conduct experiments, sparking curiosity and creativity
- Develop a thirst for knowledge about real-life
- Nurture their interest in science
- Reduce the burden of increasing science curriculum

Pilot

Unlocking Young Minds!

Imagination is more important than knowledge. Knowledge is limited. Imagination encircles the world."

Objectives:

- Spark curiosity and creativity through innovative science projects
- -Develop a love for science and a scientific attitude
- Encourage collaboration and teamwork
- Keep students ahead of the curve with the latest scientific advances
- Nurture critical thinking and problem-solving skills
 "Science is the poetry of reality." Richard Dawkins
 Innovative Projects

Students Creations

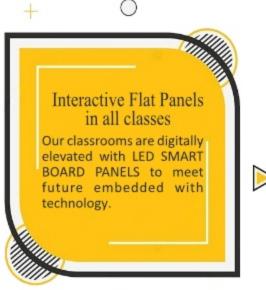

- Arduino Masters: Students programmed and built handmade apparatus using Arduino boards.
- Electromagnetic Wizards: Students conjured up electromagnets, working models of electric motors and simple electric circuits.
- 3. Renewable Energy Pioneers: Students designed and

built models of windmills, thermal power plants, nuclear power plants and bio-gas energy systems.

"Learning is experience. Everything else is just information." - Albert Einstein

In conclusion, our innovative science projects have unleashed a world of curiosity and creativity among our students. Through a love for science and promoting critical thinking, we are empowering the next generation of leaders and change-makers. As Albert Einstein once said, "The important thing is not to stop questioning. Curiosity has its own reason for existence." We are proud to be nurturing this curiosity and inspiring our students to become lifelong learners.

PERCEPTION CLUB

Pilot

Ms.K.Rajabhagawati B.A., B.Ed.

The Perception Club is an innovative initiative that aims to enhance critical thinking, creativity, emotional intelligence and social awareness among the children. It recognizes the diversity of individual perspectives and encourages the students to explore and understand the world through various lenses. The club promotes intellectual curiosity and emotional growth through interactive activities and worksheets. The objectives of the club include fostering critical thinking, creativity, collaboration and problem-solving skills. By achieving these objectives, the club empowers students to navigate life with confidence, empathy and creativity. The club's activities are designed to transform students' thinking and behaviour. The club's approach ensures the students grasp key concepts and develop essential life skills. Overall, the Perception Club plays a vital role in shaping well-rounded individuals. It helps students to become more aware, empathetic and creative thinkers. By doing so, students are prepared to face the life in all aspects.

TYPES OF PERCEPTION CLUB ACTIVITY -

- Visual perception based worksheets (visual)
- Olfactory perception based activities (smell)
- Haptic perception based activities (touch)
- Auditory perception based activities (audio)
- Gustatory perception based activities (taste)
 By implementing activities and worksheets aligned

with these objectives, the institution creates a dynamic and engaging learning environment. Through these efforts, we aim to empower our students to understand themselves and the world around them more deeply.

READING CLUB

"Reading is a basic tool in the living of a good life"

A Reading Club is a platform that fosters a love for reading, improves literacy and enhances critical thinking skills. The club supports students who need extra attention in reading. It focuses on the fundamentals: alphabet, phonics, sight and new words. Students develop the skills to read sentences confidently.

To make learning engaging, activities like word chains, word building and sentence construction are conducted. These exercises develop their comprehending ability and enhance their vocabulary. The Reading Club provides a stress-relief mechanism through reading and builds a sense of community among the members. The club's objectives include improving literacy, promoting critical thinking and developing analytical skills. Overall, the Reading Club is an excellent way to promote reading, literacy and an eternal love for learning.

Ms.Mejolin M. Sc.

he Arificial Intelligence (AI) Club is a community for AI enthusiasts to learn, explore and innovate with AI technologies. The club promotes AI awareness and understanding. The objective of the AI Club is to introduce school students to the basics of Artificial Intelligence through hands-on activities and projects. The club aims to help the students to understand AI concepts, explore different AI tools and encourage creativity.

Our Activities

Integrating AI with Scratch Application Projects:

Engagement and Fun Learning: Using AI with Scratch allows students to work on projects that are both fun-filled and educational oriented. It encourages creativity while learning the basics of AI.

Hands-On Experience:

Students are given the chance to experience with AI tools and learn by creating tangible projects.

Skill Development:

Working on AI projects enhances computational thinking, problem-solving and critical thinking skills in students. It also introduces them to new areas of technology that will be highly valuable in future.

In the AI Club, students have the opportunity to explore the exciting world of Artificial Intelligence by interacting with Scratch. By combining AI with Scratch, students gain a deeper understanding of AI technology. Students stay updated on the latest AI trends and advancements. In a nutshell, AI Club is a great way for students to comprehend AI and develop skills with novel ideas.

THEMATIC CLUB

Mr.B. Ram Prabhu, M.A.,

Ms.V. Shanthi M.A., B.Ed.

The Thematic Club aims to, nurture creativity and collaborative learning among the students. Participants are divided into teams, with each team given the opportunity to perform a skit every week based on a chosen theme.

Following the performance, other teams share their reflections, offering constructive feedback and insights about the skit. This process not only encourages creativity, but also helps students to integrate their subject knowledge with the themes, enhancing their understanding and application of concepts in a funny and interactive way.

SAPIENS!!!

Impressions from our Alumni

Dear Kamlavati!

Whenever I think of you, I remember the selfless teachers, the true friends, the magnificent building, the extensive library, well equipped labs, the enlightening assembly,

the enchanting school anthem, engaging events, the enjoyable PET period, the blue & blue uniform, huge trees and so on. Apart from academics, you taught me discipline, dedication, perseverance and responsibility. You motivated me to fly higher and higher. I earnestly thank you for what I am today. LONG LIVE!!

With great love B Karthiga (1990 to 2004) Manager, Reserve Bank of India Chennai

Hello everyone,

I am Mafrin.I'm thrilled to connect with you through this magazine. I am currently studying Computer Science and Engineering at Thiagarajar College of Engineering, Madurai, and I'm proud to be a Kamlavatian from the 2023 batch.

I'd like to share with you the parallel journey I took for my professional career. I first learned about the BSc in Data Science, an online degree offered by IIT Madras, through a workshop conducted by our school in collaboration with IIT Madras. The program caught my attention, and enrolling in it has proven to be a transformative decision. It has not only boosted my academic journey but also given me a solid foundation for my professional career.

I'm delighted to share that I am now steadily progressing toward my dream. To all of you reading this, I hope you discover your passion and make a clear plan to pursue what truly matters to you.

Wishing you all the best on your journey!

Dear Team,

Thank you for providing me with an opportunity to share my career journey and experiences.

"During my school days, I wasn't a top-ranked student—in fact, I barely passed one of my subjects. I know how it feels to struggle and doubt yourself. But I want to share that despite those challenges, I've been able to build a successful career and achieve goals I once thought were out of reach. While grades do matter, what truly makes a difference is the hunger to achieve your dreams and the perseverance to keep pushing forward. Believe in yourself, stay focused, and never stop dreaming big—if I can do it, you can too!"

Regards,

Kadhiry Khaliqu KHSS Batch (1997-1999, Kayalpatnam) Cybersecurity Architecture & Engineering Marriott International Inc, Maryland, USA

Dear Mrs. Raghavan ma'am,

My friends in our class of 1985 as well as my senior & junior friends have made excellent presentations to wish you and to reminisce the good old memories of our school days with many incidents of you back then.

I would add a very trivial incident that happened in one class of geography that I can still remember. While teaching about countries in the Americas, there was an obvious reference to West Indies. You went straight into the topic of cricket and then came back into the subject.

This just reinforces the memories mentioned by many of my friends that you not only kept your focus on the syllabus, but also discussed other topics of interest in a friendly manner.

Thank you for the many lessons in geography and in life that you taught us. We are now spread all over the world in different geographies, wishing you all the best for a healthy and happy life. Happy 91st Birthday, ma'am.

Kind regards,

Abdulla Jawhari

Architectural Engineer KHSS Class of 1985 Hong Kong

I am P.Priyadharshini from the 2004 batch. It gives me immense pleasure to say that I am an alumni of Kamlavati.I completed my B.Sc Maths from Govindammal Aditanar College for Women in 2007 and was placed in Infosys during my final year. My

confidence, presentati on and language skills play an important role in my placement. I owe so much to my mother Kamlavati who fed me all the skills.

> Regards, Priya

This is Syed currently perusing B.Tech, mechatronics in SRM university, I am a proud alumni of kamlavati Higher Secondary School this school has played a vital role in shaping my future the knowledge I gained over the years in this school with the help of faculties during the course of 11 years is more that to ask as I passed out I took a whole pile of memories which I cherish over the period of time; I would like to recall a memory of mine, I was in 6 th when it all started I had an English assignment due on the date which I was yet to finish then there comes an announcement indicating that students interested in robotics and electronics could appear at the ATL tinkering lab and knowingly or unknowingly I was the guy to raise my hand on the first place from there it all changed. This school made a platform for me to perform on and we went all out to win a National level completion and head to an international completion

Thank you
